Honorable William K. Reilly, Administrator
Environmental Protection Agency
401 Main Street, S. W.
Washington, D. C. 20460

Dear Mr. Reilly:

It has come to my attention that the Environmental Protection Agency is considering permitting the using in this country of a gasoline performance additive known as HiTEC 3000. The additive seems to play a substantial role in reducing NOx emissions from automobiles.

As air pollution is a major concern to my city, it is imperative that all options be thoroughly examined as quickly as possible. It is my hope that this additive be given prompt consideration by the Environmental Protection Agency.

Sincerely,

Pam Miller
Vice Mayor
